

Redesign the Misleading Colored Chart

R.No: 20 Reg. No: 192524059 Name: Lakshna Sree T S

Each chart below uses color in a misleading or confusing way. For each one, answer the three questions in your own words.

Chart 1

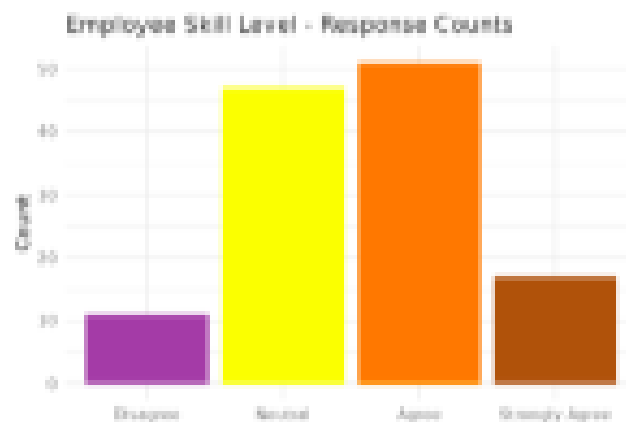

1. What is this chart trying to show?

2. What's wrong with the color choice?

3. Propose a better color scheme (describe it in words):

Chart 2

1. What is this chart trying to show?

2. What's wrong with the color choice?

3. Propose a better color scheme (describe it in words):

Redesign the Misleading colored chart

Lakshna Sree TS(192524059)

chart - 1

1. The chart is trying to show the number of target met and missed by each team.
2. The green and red color imply good or bad rather than simply representing two categories
3. Use blue for "Target Met" and orange for "Missed". These colors have better contrast and are easier to distinguish.

Chart - 2

1. It shows the number of responses for each employee skill level: Diagnose, Neutral, Agree, Strongly Agree.
2. The categories are ordered, from disagree to strongly agree but the colors are a random mix. Yellow is very bright and draws attention to "neutral", as it isn't key findings. Orange and brown look similar to some viewers and imply a link that doesn't exist.
3. Use a single-color gradient from light to dark.
Diagnose → Neutral → Agree → strongly Agree
light blue → medium light blue → medium blue → Dark blue.
